Independent Auditors' Report

To the Board of Directors of ITEQ Corporation:

Opinion

We have audited the consolidated financial statements of ITEQ Corporation and its subsidiaries (“the Group”), which comprise the consolidated balance sheets as of December 31, 2024 and 2023, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards (“IFRSs”), International Accounting Standards (“IASs”), Interpretations developed by the International Financial Reporting Interpretations Committee (“IFRIC”) or the former Standing Interpretations Committee (“SIC”) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In our judgement, the key audit matters we communicated in the auditors' report were as follows:

- Revenue recognition

Refer to note 4(o) "Revenue" and note 6(s) to the consolidated financial statements for the disclosure of revenue recognition.

Description of key audit matter:

The Group is a listed company in related to public interest, and the investors are highly expecting the financial performance. Therefore, the Group's revenue recognition has been identified as one of the key matters while conducting our audit on the financial statements of the Group.

How the matter was addressed in our audit:

Our principal audit procedures included understanding the types of revenue, and assess the accuracy of the timing of revenue recognition; conducting the variance analysis on the revenue from major customers to evaluate if there are any significant unusual transactions; as well as testing the design, operation and implantation of the effectiveness of internal control on revenue recognition. Furthermore, we also selected some samples of transaction records of sales during the period before and after the balance sheet date in order to obtain the related transaction documents to evaluate the appropriateness of timing of recognition.

Other Matter

ITEQ Corporation has prepared its parent-company-only financial statements as of and for the years ended December 31, 2024 and 2023, on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are (including the Audit Committee) responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Tang, Chia-Chien and Chen, Ya-Ling.

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' audit report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' audit report and consolidated financial statements, the Chinese version shall prevail.

(English Translation of Consolidated Financial Statements Originally Issued in Chinese)
ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements
For the years ended December 31, 2024 and 2023
(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history:

ITEQ Corp. (the “Company”) was incorporated on April 10, 1997. ITEQ Corp. and subsidiaries (the Group) engages in the manufacturing and sales of mass lamination boards, copper clad laminates, prepreg products, electronic components, as well as the import and export trade of manufacturing equipment for the aforementioned products.

(2) Approval date and procedures of the consolidated financial statements:

These consolidated financial statements were authorized for issue by the Board of Directors on March 7, 2025.

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the IFRS Accounting Standards endorsed by the Financial Supervisory Commission (“FSC”), R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2024:

- Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”
- Amendments to IAS 1 “Non-current Liabilities with Covenants”
- Amendments to IAS 7 and IFRS 7 “Supplier Finance Arrangements”
- Amendments to IFRS 16 “Lease Liability in a Sale and Leaseback”

- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2025, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 21 “Lack of Exchangeability”
- Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments” regarding the application guidance requirements for Section 4.1 of IFRS 9 and the related disclosure requirements of IFRS 7

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (c) The impact of IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
IFRS 18 "Presentation and Disclosure in Financial Statements"	<p>The new standard introduces three categories of income and expenses, two income statement subtotals and one single note on management performance measures. The three amendments, combined with enhanced guidance on how to disaggregate information, set the stage for better and more consistent information for users, and will affect all the entities.</p> <ul style="list-style-type: none"> ● A more structured income statement: under current standards, companies use different formats to present their results, making it difficult for investors to compare financial performance across companies. The new standard promotes a more structured income statement, introducing a newly defined 'operating profit' subtotal and a requirement for all income and expenses to be allocated between three new distinct categories based on a company's main business activities. ● Management performance measures (MPMs): the new standard introduces a definition for management performance measures, and requires companies to explain in a single note to the financial statements why the measure provides useful information, how it is calculated and reconcile it to an amount determined under IFRS Accounting Standards. ● Greater disaggregation of information: the new standard includes enhanced guidance on how companies group information in the financial statements. This includes guidance on whether information is included in the primary financial statements or is further disaggregated in the notes. 	January 1, 2027

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

The Group is evaluating the impact on its consolidated financial position and consolidated financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- IFRS 19 “Subsidiaries without Public Accountability: Disclosures”
- Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments” regarding the application guidance requirements for Sections 3.1 and 3.3 of IFRS 9 and the related disclosure requirements of IFRS 7.
- Annual Improvements to IFRS Accounting Standards—Volume 11
- Amendments to IFRS 9 and IFRS 7 “Contracts Referencing Nature-dependent Electricity”

(4) Summary of material accounting policies:

The material accounting policies presented in the consolidated financial statements are summarized below. The following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C. (altogether referred to “IFRS Accounting Standards” endorsed by the “FSC”).

(b) Basis of preparation

(i) Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

- 1) Financial assets and liabilities at fair value through profit or loss are measured at fair value;
- 2) Financial assets at fair value through other comprehensive income are measured at fair value; and
- 3) The defined benefit assets are measured at fair value of the plan assets less the present value of the defined benefit obligation.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

(ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollar (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from Intragroup transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) List of subsidiaries in the consolidated financial statements

List of the subsidiaries included in the consolidated financial statements:

Name of investor	Name of subsidiary	Principal activity	Shareholding		Description

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Name of investor	Name of subsidiary	Principal activity	Shareholding		Description
			December 31, 2024	December 31, 2023	
ITEQ(HK)	ITEQ (Wuxi) Corporation (ITEQ (WX))	Manufacturing and sales of prepreg and copper clad lamination	100.00 %	100.00 %	
"	ITEQ (Guangzhou) Corporation (ITEQ (GZ))	Manufacturing and sales of prepreg and copper clad lamination	100.00 %	100.00 %	
Eagle Great	ITEQ (Huangjiang) Corporation (ITEQ (HJ))	Manufacturing and sales of mass lamination	100.00 %	100.00 %	

Note 1: The Group holds a comprehensive shareholding, with 50% held by ESIC, 25% held by ITEQ (DG) and 25% held by ITEQ (WX).

(iii) List of subsidiaries which are not included in the consolidated financial statements: None.

(d) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except an investment in equity securities designated as at fair value through other comprehensive income, which are recognized in other comprehensive income.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of any part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

The Group classifies the asset as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Group classifies the liability as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Group does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

(f) Cash and cash equivalents

Cash comprises cash on hand and cash in bank. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(g) Financial instruments

Account receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. An financial asset (unless it is a account receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. An account receivable without a significant financing component is initially measured at the transaction price.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at amortized cost; fair value through other comprehensive income (FVOCI) – equity investment or fair value through profit or loss (FVTPL). Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

Some accounts receivables are held within a business model whose objective is achieved by both collecting contractual cash flows and selling by the Group, therefore, those receivables are measured at FVOCI. However, they are included in the ‘accounts receivables’ line item.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Group's right to receive payment is established, which is normally the ex-dividend date.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, financial assets measured at amortized cost, notes and accounts receivable, other receivable, refundable deposits and other financial assets).

The Group measures loss allowances at an amount equal to lifetime expected credit loss (ECLs), except for the following which are measured as 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for accounts and notes receivable are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 90 days past due or the debtor is unlikely to pay its credit obligations to the Group in full.

The Group holds time deposits for financial institutions with investment grade or above, and it is considered to be low credit risk.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization;
or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

5) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

4) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged, cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted-average method and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Joint arrangements

A joint arrangement is an arrangement of which two or more parties have joint control. The IFRS classifies joint arrangements into two types — joint operations and joint ventures, which have the following characteristics: (a) the parties are bound by a contractual arrangement; and (b) the contractual arrangement gives two or more of those parties joint control of the arrangement. IFRS 11 “Joint Arrangements” defines joint control as the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities (i.e., activities that significantly affect the returns of the arrangement) require the unanimous consent of the parties sharing control.

A joint venture is a joint arrangement whereby the Group has joint control of the arrangement (i.e., joint venturers) in which the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities. The Group recognizes its interest in a joint venture as an investment and accounts for that investment using the equity method in accordance with IAS 28 “Investments in Associates and Joint Ventures”, unless the Group qualifies for exemption from that Standard.

When assessing the classification of a joint arrangement, the Group considers the structure and legal form of the arrangement, the terms in the contractual arrangement, and other facts and circumstances. When the facts and circumstances change, the Group reevaluates whether the classification of the joint arrangement has changed.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(j) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Building and structures	3~20 years
2) Machinery and equipment	3~10 years
3) Transportation equipment	5~10 years
4) Facilities	3~10 years
5) Other equipment	2~10 years
6) Lease improvements	1~9 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(k) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Group recognizes a right-of-use asset and a lease liability as a lessee at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- there is a change of its assessment on whether it will exercise an extension or termination option; or
- there is any lease modifications.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

If an arrangement contains lease and non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'rent income'.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(l) Intangible assets

(i) Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

- | | |
|----------------------|-----------|
| 1) Computer software | 1~5 years |
|----------------------|-----------|

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(m) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(n) Provisions

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

(o) Revenue

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

1) Sale of goods

The Group manufactures prepreg and copper clad laminate, and sales to customer. The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over use the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group often offers volume discounts to its customers, revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate the discounts, using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A refund liability is recognized for expected volume discounts payable to customers in relation to sales made until the end of the reporting period.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(p) Government grants

The Group recognizes an unconditional government grant in profit or loss as non-operating income when the grant becomes receivable. Other government grants related to assets are initially recognized as deferred income at fair value if there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant; they are then recognized in profit or loss as deduction of depreciation. Grants that compensate the Group for expenses or losses incurred are recognized in profit or loss on a systematic basis in the periods in which the expenses or losses are recognized.

(q) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(r) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

Grant date of a share-based payment award is the date which the Group confirms the numbers of shares subscribed by employees.

(s) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS 37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and at the time of transaction (i) affects neither accounting nor taxable profits (losses) and (ii) does not give rise to equal taxable and deductible temporary differences;

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.
- (t) Earnings per share

The Group discloses the Group's basic and diluted earnings per share attributable to ordinary shareholders of the Group. Basic earnings per share are calculated as the profit attributable to ordinary shareholders of the Group divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Group divided by the weighted-average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as employee compensation.

- (u) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing these consolidated financial statements, management has made judgments and estimates about the future, including climate-related risks and opportunities, that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Group's risk management and climate-related commitments where appropriate. Revisions to estimates are recognised prospectively in the period of the change and future periods.

Information about judgements made in applying accounting policies do not have significant effects on the amounts recognized in the financial statements.

Information about assumptions and estimation uncertainties that do not have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

The accounting policies and disclosure of the Group include measuring financial assets and liabilities at fair value through profit or loss. The Group's financial instrument valuation group conducts independent verification on fair value by using data sources that are independent, reliable, and consistent with other resource. This financial instrument valuation group also regularly revises the input data and any essential adjustments on the fair value to confirm that evaluation results are reasonable.

When measuring the fair value of an asset or a liability, the Group use market observable data. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the value techniques were as follows:

- Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data. (Unobservable inputs).

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2024	December 31, 2023
Cash on hand	\$ 343	221
Cash in bank	1,935,333	4,169,113
Bank acceptances	1,962,741	1,424,936
Time deposits	<u>684,995</u>	<u>-</u>
Cash and cash equivalents	<u>\$ 4,583,412</u>	<u>5,594,270</u>

Please refer to note 6(u) for the exchange rate risk and sensitivity analysis of the financial assets and liabilities of the Group.

(b) Financial assets

(i) Financial assets at fair value through profit or loss

	December 31, 2024	December 31, 2023
Stock listed on domestic emerging markets	<u>\$ 3,387</u>	<u>3,654</u>

Please refer to note 6(t) for the amount of remeasurement at fair value recognized in profit or loss.

(ii) Financial assets at fair value through other comprehensive income

	December 31, 2024	December 31, 2023
Domestic unlisted common shares	\$ 5,546	5,221
Unlisted fund	<u>24,553</u>	<u>31,058</u>
	<u>\$ 30,099</u>	<u>36,279</u>

The Group designated the investments shown above as equity instruments as at fair value through other comprehensive income because these equity instruments represent those investments that the Group intends to hold for long-term for strategic purposes.

(iii) Financial assets measured at amortized cost

	December 31, 2024	December 31, 2023
Time deposits	<u>\$ 60,791</u>	<u>86,704</u>

(iv) For credit risks, please refer to note 6(u).

(v) The aforementioned financial assets were not pledged.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(c) Receivables

	December 31, 2024	December 31, 2023
Notes receivable	\$ 787,328	1,019,692
Accounts receivable	12,064,898	10,498,105
Less: loss allowance	<u>(62,513)</u>	<u>(20,078)</u>
	<u>\$ 12,789,713</u>	<u>11,497,719</u>

The Group applies the simplified approach to provide for its expected credit losses, i.e., the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, accounts receivable have been grouped based on shared credit risk characteristics and the days past due, as well as the incorporated forward-looking information. The loss allowance were determined as follows:

	December 31, 2024		
	Gross carrying amount	Weight- average loss rate	Loss allowance
Current	\$ 12,461,691	0.00%	-
Past due 1 to 30 days	223,186	0.00%~18.60%	21,430
Past due 31 to 90 days	89,400	0.00%~66.8%	17,783
Past due more the 91 days	<u>77,949</u>	20%~100%	<u>23,300</u>
	<u>\$ 12,852,226</u>		<u>62,513</u>

	December 31, 2023		
	Gross carrying amount	Weight- average loss rate	Loss allowance
Current	\$ 11,259,512	0.00%	-
Past due 1 to 30 days	211,623	0.00%~17.00%	2,176
Past due 31 to 90 days	26,065	0.00%~56.00%	983
Past due more the 91 days	<u>20,597</u>	0.00%~100%	<u>16,919</u>
	<u>\$ 11,517,797</u>		<u>20,078</u>

The movement in the allowance for receivables were as follows:

	2024	2023
Balance on January 1, 2024	\$ 20,078	7,967
Impairment loss recognized	42,100	12,493
Amounts written off	(1,134)	-
Effect of changes in exchange rates	<u>1,469</u>	<u>(382)</u>
Balance on December 31, 2024	<u>\$ 62,513</u>	<u>20,078</u>

As of December 31, 2024 and 2023, the aforementioned financial assets were not pledged.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group entered into separate factoring agreements with financial institutions to sell its account receivables. Under the agreements, the Group does not have the responsibility to assume the default risk of the transferred accounts receivable but is liable for the losses incurred on any business dispute (such as sales returns and discounts). The Group derecognized the above accounts receivable because it has transferred substantially all of the risks and rewards of their ownership, and it does not have any continuing involvement in them. The accounts receivable from the financial institutions were recognized as “other receivables” upon the derecognition of those accounts receivable. As of December 31, 2023, the Group sold its accounts receivable without recourse as follows:

December 31, 2023					
Purchaser	Amount derecognized	Amount advances unpaid	Advances paid	Amount recognized in other receivables	Range of interest rate
KGI Commercial Bank	\$ 949	854	-	949	-

As of December 31, 2023, the Group provided promissory notes, pledged as collaterals to the bank, amounted to \$9,300 thousand.

There was no such transaction as of December 31, 2024.

(d) Inventories

	December 31, 2024	December 31, 2023
Raw materials	\$ 2,811,674	2,252,156
Work in progress	120,600	155,570
Finished goods	803,070	568,128
Inventories in transit	27,915	38,389
	<u>\$ 3,763,259</u>	<u>3,014,243</u>

Except cost of goods sold and inventories recognized as expenses, the remaining gains or losses which were recognized as operating cost or deduction of operating cost were as follows:

	2024	2023
Losses (gains) on valuation of inventories	\$ (16,569)	147,986
Scrap income	(505,580)	(418,734)
	<u>\$ (522,149)</u>	<u>(270,748)</u>

The aforementioned losses on valuation of inventories were due to the reduction to net realizable value and recognition of losses on valuation of inventories, the gains on reversal valuation of inventories were due to the disposal of inventories which had been recognized as loss on valuation.

As of December 31, 2024 and 2023, the inventories were not pledged.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(e) Investments accounted for using the equity method

The components of investments accounted for using the equity method at the reporting date were as follows:

	December 31, 2024	December 31, 2023
Joint venture	<u><u>\$ 36,896</u></u>	<u><u>42,122</u></u>

(i) Joint venture

To expand the manufacturing and sales of materials for laminate substrates in semiconductor packaging, the Group established MGC-ITEQ Technology Co., Ltd. as a joint venture with Mitsubishi Gas Chemical Company, Inc. on March 31, 2022. According to the agreement, both parties have the power to veto any major resolutions at the Board meetings, so the Group has no control over the joint venture; therefore, the Group classified the agreement as a joint venture and treated it by using the equity method. The Group's share of profit or loss and other comprehensive income of such investments were recognized based on the unaudited financial statements by the certified public accountant.

The Group's financial information for investments in individually insignificant joint venture accounted for using equity method at the reporting date was as follows. These financial information are included in the consolidated financial statements.

	December 31, 2024	December 31, 2023
Carrying amount of individually insignificant joint venture	<u><u>\$ 36,896</u></u>	<u><u>43,941</u></u>
	<u>2024</u>	<u>2023</u>
Attributable to the Group:		
Loss from continuing operations	<u><u>\$ (5,226)</u></u>	<u><u>(5,481)</u></u>

(ii) Pledge to secure

As of December 31, 2024 and 2023, the investments accounted for using equity method were not pledged.

(f) Property, plant and equipment

The movements in property, plant and equipment of the Group were as follows:

	<u>Land</u>	<u>Buildings and structure</u>	<u>Machinery and equipment</u>	<u>Transport equipment</u>	<u>Facilities</u>	<u>Other equipment</u>	<u>Leased improvements</u>	<u>Total</u>
Costs:								
Balance on January 1, 2024	\$ 193,985	3,957,921	8,397,236	45,932	417,703	1,777,161	406,239	15,196,177

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(l) Lease liabilities

Lease liabilities of the Group were as follows:

	December 31, 2024	December 31, 2023
Current	<u>\$ 65,575</u>	<u>61,884</u>
Non-current	<u>\$ 147,937</u>	<u>210,116</u>

For the maturity analysis, please refer to note 6(u) financial instruments.

Amount recognized in profit or loss were as follows:

	2024	2023
Interest expenses on lease liabilities	<u>\$ 6,698</u>	<u>8,301</u>
Expenses relating to short-term leases and leases of low-value asset	<u>\$ 39,129</u>	<u>47,636</u>

Amount recognized in the statement of cash flow were as follows:

	2024	2023
Total cash outflow for leases	<u>\$ 109,035</u>	<u>119,050</u>

(i) Leases of lands and buildings

The Group leases lands and buildings for its factory and office space. The leases run for a period of 2 to 50 years. Some leases include an option to renew the leases for an additional period of the same duration after the end of the contract term.

- (ii) The Group also leases machinery with contract terms within a year. These leases are short-term leases or leases of low-value items. The Group has selected not to recognize right-of-use assets and lease liabilities for these leases.

(m) Employee benefits

(i) Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value were as follows:

	December 31, 2024	December 31, 2023
Present value of the defined benefit obligations	<u>\$ 21,451</u>	<u>21,928</u>
Fair value of plan assets	<u>(55,286)</u>	<u>(50,721)</u>
Net defined benefit assets (under other non-current assets)	<u>\$ (33,835)</u>	<u>(28,793)</u>

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service and average monthly salary for the six months prior to retirement.

1) Composition of plan assets

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Group's Bank of Taiwan labor pension reserve account balance amounted to \$55,286 thousand as of December 31, 2024. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movements in present value of the defined benefit obligations

The movement in present value of the defined benefit obligations for the Group were as follows:

	<u>2024</u>	<u>2023</u>
Defined benefit obligations on January 1	\$ 21,928	22,706
Current service costs and interest costs	351	363
Remeasurements of the net defined benefit asset		
—Actuarial losses (gains) arising from experience adjustments	(225)	379
Benefits paid by the plan	(603)	(1,520)
Defined benefit obligations on December 31	<u>\$ 21,451</u>	<u>21,928</u>

3) Movements of defined benefit plan assets

The movements in the present value of the defined benefit plan assets for the Group were as follows:

	<u>2024</u>	<u>2023</u>
Fair value of plan assets on January 1	\$ 50,721	51,165
Interest income	812	819
Remeasurements of the net defined benefit asset:		
—Return on plan assets excluding interest income	4,356	257
Benefits paid by the plan	(603)	(1,520)
Fair value of plan assets on December 31	<u>\$ 55,286</u>	<u>50,721</u>

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Group were as follows:

	<u>2024</u>	<u>2023</u>
Current service costs	\$ -	-
Net interest of net assets for defined benefit assets	<u>(461)</u>	<u>(456)</u>
	<u>\$ (461)</u>	<u>(456)</u>
	<u>2024</u>	<u>2023</u>
Operating expense	<u>\$ (461)</u>	<u>(456)</u>

5) Remeasurements of the net defined benefit asset recognized in the other comprehensive income

The Group's remeasurements of the net defined benefit asset recognized in the other comprehensive income were as follow:

	<u>2024</u>	<u>2023</u>
Accumulated amount on January 1	\$ (11,506)	(11,628)
Recognized during the period	<u>(4,581)</u>	<u>122</u>
Accumulated amount on December 31	<u>\$ (16,087)</u>	<u>(11,506)</u>

6) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Discount rate	1.70 %	1.60 %
Future salary increase rate	2.00 %	2.00 %

The expected allocation payment to be made by the Group to the defined benefit plans for the one-year period after the reporting date for 2024 is \$0 thousand.

The weighted-average lifetime of the defined benefits plans for the year ended December 31, 2024 is 1.8 years.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

7) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

	<u>Impact on the defined benefit obligations</u>	
	<u>Increased 0.25%</u>	<u>Decreased 0.25%</u>
December 31, 2024		
Discount rate	\$ (301)	308
Future salary increasing rate	280	(275)
December 31, 2023		
Discount rate	\$ (389)	347
Future salary increasing rate	318	(312)

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. In practice, assumptions may be interactive with each other. The method used in the sensitivity analysis is consistent with the calculation of net pension liabilities in the balance sheets.

There is no change in the method and assumptions used in the above-mentioned preparation of sensitivity analysis for 2024 and 2023.

(ii) Defined contribution plans

The Group allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Group allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension costs incurred from the contributions to the Bureau of the Labor Insurance amounted to \$13,463 thousand and \$13,462 thousand for the years ended December 31, 2024 and 2023, respectively.

The Group's subsidiaries including ITEQ (DG), ITEQ (JX), ITEQ (WX), ITEQ (GZ) and ITEQ (HJ), adopted the defined contribution plans, with the pension costs of \$154,280 thousand and \$158,408 thousand for the years ended December 31, 2024 and 2023, respectively.

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(n) Income taxes

(i) Income tax expenses

The components of income tax expense (benefit) for the years ended of December 31, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Current income tax expense (benefit)		
Current period	\$ 356,360	189,808
Adjustment for prior periods	<u>(12,804)</u>	<u>(36,875)</u>
	<u>343,556</u>	<u>152,933</u>
Deferred income tax expense (benefit)		
Origination and reversal of temporary differences	<u>151,982</u>	<u>322,737</u>
Income tax expense	<u><u>\$ 495,538</u></u>	<u><u>475,670</u></u>

The amount of income tax benefit (expense) recognized in other comprehensive income (loss) for 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Components of other comprehensive income that will not be reclassified to profit or loss:		
Unrealized gains (losses) on equity instruments at fair value through other comprehensive income	<u>\$ 46</u>	<u>(1,482)</u>
Components of other comprehensive income that will be reclassified to profit or loss:		
Exchange differences on translation	<u>\$ (227,912)</u>	<u>70,145</u>

Reconciliation of income tax expense and income before tax for December 31, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Profit before tax	<u>\$ 1,317,325</u>	<u>1,152,296</u>
Income tax calculated using the Company's domestic tax rate	\$ 263,465	230,459
Effect of tax rates in foreign jurisdiction	(118,813)	(92,946)
Non-deductible expenses	8,057	6,798
Exempt income	(251)	(76)
Change in unrecognized temporary differences	150,173	230,685
Deferred tax effect on earnings of subsidiaries	245,738	138,517
Adjustment for prior periods	(12,804)	(36,875)
Additional tax on undistributed earnings	-	9,714
Tax incentives	(32,481)	(21,895)
Others	<u>(7,546)</u>	<u>11,289</u>
	<u><u>\$ 495,538</u></u>	<u><u>475,670</u></u>

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Deferred tax assets and liabilities

1) Unrecognized deferred tax liabilities

The Group was able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as of December 31, 2024 and 2023. Also, management considered its probability that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences were not recognized under deferred tax liabilities as follows:

	December 31, 2024	December 31, 2023
Aggregate amount of temporary differences related to investments in subsidiaries	\$ 2,970,467	2,970,681

2) Unrecognized deferred tax assets

Deferred tax assets have not been recognized in respect of the following Items:

	December 31, 2024	December 31, 2023
Loss carryforward	\$ 30,970	11,197

According to the Income Tax Act, the operating loss as examined and assessed by the local tax authorities can be carried forward for use as a deduction from taxable income over a period for prior years. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

As of December 31, 2024, the information of the Group's unutilized tax losses for which no deferred tax assets were recognized are as follows:

Year of loss	Tax effect of unrecognized unutilized tax losses	Tax effect of recognized tax losses	Expiry date
2022	\$ 3,264	-	2027
2023	8,311	-	2028
2024	19,395	-	2029
	\$ 30,970	-	

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

3) Recognized deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities for December 31, 2024 and 2023 were as follows:

	Unrealized sales allowance	Allowance for valuation of inventories	Impairment of receivables	Exchange differences on translation of the financial statements of foreign operations	Loss carryforward	Others	Total
Deferred tax assets:							
Balance on January 1, 2024	\$ 515	72,686	12,636	138,858	134,140	12,258	371,093

(iii) Assessment of tax

The Company and subsidiary BangMao's income tax returns for the years through 2022 were assessed and approved by the local tax authorities.

(o) Capital and other equity

(i) Ordinary shares

As of December 31, 2024 and 2023, the number of authorized common shares of both 500,000 thousand shares had a par value of \$10 per share. The total value of the authorized ordinary shares amounted to both \$5,000,000 thousands, of which 362,957 thousand shares, all issued shares were paid up upon issuance.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Capital surplus

The details of capital surplus were as follows:

	December 31, 2024	December 31, 2023
Additional paid-in capital	\$ 9,167,555	9,167,555
Expired employee stock options	20,402	10,378
Employee stock options	<u>39,117</u>	<u>36,763</u>
	<u>\$ 9,227,074</u>	<u>9,214,696</u>

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

The Company's Article of Incorporation stipulates that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes. Of the remaining balance is to be appropriated as follows:

- A. 10% is to be appropriated as legal reserve
- B. Special reserve should be appropriated (reversed) in according to relevant laws and regulations.
- C. If there is any remaining amount, combine it with the cumulative undistributed earnings, the Board of Directors shall propose for the distribution of earnings subject to the final approval of the shareholders' meeting for the distribution of dividends and bonuses to shareholders. Where the earnings, mentioned above is paid out in cash, the Board of Directors shall be authorized to adopt a supermajority resolution for the payout and report it to the shareholders' meeting, whereas if it is paid out by issuing new shares, it shall be carried out after a resolution is adopted by the shareholders' meeting in accordance with the regulations.

The Company is currently in its growth stage; thus, the policy for distribution of dividends should reflect factors such as the current and future investment environment, fund requirements, domestic competition and capital budget, as well as benefits to be given out, balance in the distribution of shares and cash bonuses and long-term financial planning. The Company's Articles of Incorporation stipulate that at least 20% of dividends to shareholders shall be distributed in cash.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

1) Legal reserve

Appropriation of earnings to legal reserve shall be made until the reserve equals the Company's paid-in capital. Legal reserves may be used to offset the deficit. When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Special reserve

In accordance with the requirements issued by the FSC, a portion of earnings shall be allocated as special reserve during earnings distribution. If the Company has already reclassified a portion of earnings to special reserve under the preceding subparagraph, it shall make supplemental allocation of special reserve for any difference between the amount it has already allocated and the amount of the current-period total net reduction of other shareholders' equity. An equivalent amount of special reserve shall be allocated from the after-tax net profit in the period, plus items other than after-tax net profit in the period, that are included in the undistributed current-period earnings and the undistributed prior-period earnings. A portion of undistributed prior-period earnings shall be reclassified to special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to the net reduction of other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Appropriation of earnings

The amounts of cash dividends on the 2023 and 2022 earnings distribution had been approved during the board meeting on February 27, 2024 and March 7, 2023, respectively, the relevant dividend distributions to shareholders were as follows:

	<u>2023</u>		<u>2022</u>	
	<u>Amount per share (in dollars)</u>	<u>Amount</u>	<u>Amount per share (in dollars)</u>	<u>Amount</u>
Dividends distributed to ordinary shareholders:				
Cash	\$ 1.5	<u>544,436</u>	3.0	<u>1,088,872</u>

The related information mentioned above would be available at the Market Observation Post System website.

The amount of cash dividends on the 2024 earnings distribution, had been approved during the board meeting held on March 7, 2025, the relevant dividend distributions to shareholders were as follows:

	<u>2024</u>	
	<u>Amount per share (in dollars)</u>	<u>Amount</u>
Dividends distributed to ordinary shareholders:		
Cash	\$ 1.8	<u>653,323</u>

Notes to the Consolidated Financial Statements

(q) Share-based payment

As of December 31, 2024 and 2023, the Group had the share-based payment arrangements as follows:

<u>Type</u>	<u>Equity-settled Employee stock options issued in 2021</u>
Grant date	2021.7.30
Number of shares granted (units)	1,000
Number of common shares eligible (shares)	1,000
Subscription price per share (dollar)	\$95.9

The duration of employee stock option is five years, after two years from the grant of employee stock options, the option holder may exercise were as follows:

<u>Employee stock options grant period</u>	<u>Exercise rate (cumulative)</u>
The 2nd year of the expired date	60 %
The 3rd year of the expired date	80 %
The 4nd year of the expired date	100 %

(i) Determined the fair value of equity instruments granted

The Company used Black-Scholes Model in measuring the fair value of its employee stock option issued in 2021, the fair value of employee stock option is 57.2 dollars per units at the date of grant. The summarized factors considered were as follows:

	<u>Employee stock options plan in 2021</u>
Exercise price at grant date (dollar)	\$95.9
Expected life	3.5 years; 4 years; 4.5 years
Share price at grant date (dollar)	\$137
Expected volatility	36.48%
Expected dividend	-
Risk-free interest rate	0.289% ; 0.299% ; 0.308%

(ii) Description of share-based payment arrangements

Details of the employee stock options were as follows:

	<u>2024</u>		<u>2023</u>	
	<u>Weighted average exercise price (dollar)</u>	<u>Number of options (units)</u>	<u>Weighted average exercise price (dollar)</u>	<u>Number of options (units)</u>
Outstanding on January 1	\$ 86.1	1,000	95.9	1,000
Granted during the period	-	-	-	-
Outstanding on December 31	86.1	<u>1,000</u>	95.9	<u>1,000</u>
Exercisable on December 31		<u>587</u>		<u>600</u>

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

For the years ended December 31, 2024 and 2023, the Group recognized the employee stock option compensation cost (attributable to subsidiaries employee) were \$12,378 thousand and \$13,030 thousand, respectively, and recorded under capital surplus-employee stock options.

(r) Employees' compensation and Directors' remuneration

In accordance with the Articles of Incorporation, the Company should contribute no less than 2% of the profit as employee compensation and less than 2% as directors' remuneration when there is profit for the year. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit. The distribution of shares and cash of the abovementioned employee compensation is approved by the Board of Directors, the recipients may include the employees' of the Company's subsidiaries who meet certain conditions, the conditions and distribution methods are determined by the Board of Directors.

The Company accrued its employees' compensation and directors' remuneration were as follows:

	2024	2023
Employees' compensation	\$ 49,432	47,308
Directors' remuneration	12,358	11,827
	\$ 61,790	59,135

The abovementioned amount of employees' compensation and remuneration of Directors were estimating based on profit before tax, with deducted multiplied by the distribution ratio of employees' compensation and remuneration of Directors set out in the Articles of Incorporation as the estimation basis and presented as the operating costs or operating expenses of the period. If there is any difference between the actual distribution amount in the following year and the estimated amount, it shall be treated as changes in accounting estimates, and the difference is recognized as the profit or loss of the following year.

The amounts, as stated in the parent-company-only financial statements, are identical to those of the actual distributions for December 31, 2024 and 2023. Related information would be available at the Market Observation Post System website.

(u) Disclosures for financial instruments

(i) Credit risk

1) Credit risk exposure

The Carrying amount of financial assets represents the maximum amount exposed to credit risk.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Concentration of credit risk

As of December 31, 2024 and 2023, 51% and 48%, respectively, of accounts receivable were concentrated on the Group's ten major customers. Thus, the Group's credit risk is significantly centralized.

3) Credit risk of receivables

For credit risk exposure of receivables, please refer to note 6(c).

Other financial assets at amortized cost includes time deposits, other receivables and guarantee deposits received, there were no loss allowance as of December 31, 2024 and 2023.

All of these financial assets are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12-month expected credit losses. Regarding how the financial instruments are considered to have low credit risk, please refer to note 4(g).

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	<u>Carrying amount</u>	<u>Contractual cash flows</u>	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-5 years</u>	<u>More than 5 years</u>

The Group does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) Foreign currency risk

1) Exposure to currency risk

The Group's significant exposure to foreign currency risk were as follows:

	December 31, 2024			December 31, 2023			
	Foreign currency	Exchange rate	NTD	Foreign currency	Exchange rate	NTD	
<u>Financial assets</u>							
<u>Monetary items</u>							
USD	\$	60,217	32.79	1,974,515	47,177	30.71	1,448,806
<u>Financial liabilities</u>							
<u>Monetary items</u>							
USD		98,696	32.79	3,236,242	75,098	30.71	2,306,260

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable and accounts payable and etc. that are denominated in foreign currency. A strengthening (weakening) of 1% of the NTD against the USD as of December 31, 2024 and 2023 would have increased (decreased) the profit before tax by \$12,617 thousand and \$8,575 thousand, respectively. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the reporting date. The analysis assumes that all other variables remain constant and performed on the same basis for 2024 and 2023.

3) Foreign exchange gain and loss on monetary items

Since the Group has many kinds of functional currency, the information on foreign exchange gain (loss) on monetary items is disclosed by total amount. For the years ended December 31, 2024 and 2023, foreign exchange losses (including realized and unrealized portions) amounted to \$(86,265) thousand and \$(84,683) thousand, respectively.

(iv) Interest rate analysis

Please refer to the notes on liquidity risk anagement and interest rate exposure of the Group's financial liabilities.

The following sensitivity analysis is based on the exposure to the interest rate risk of non-derivative financial instruments on the reporting date. Regarding liabilities with variable interest rates, the analysis is based on the assumption that the amount of liabilities outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 1% when reporting to management internally, which also represents the Group's management's assessment of the reasonably possible interest rate change.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

If the interest rate had increased / decreased by 1%, the Group's profit before tax would have increased / decreased by \$55,752 thousand and \$52,674 thousand, respectively, for the years ended December 31, 2024 and 2023, with all other variable factors remaining constant. This is mainly due to the Company's borrowing at variable rates.

(v) Other market price risk

For the years ended December 31, 2024 and 2023, the sensitivity analyses for the changes in the securities price at the reporting date were performed using the same basis for the profit and loss as illustrated below:

Price of securities on the reporting date	2024		2023	
	Other comprehensive income after tax	Profit	Other comprehensive income after tax	Profit
Increasing 1%	\$ <u>301</u>	<u>34</u>	<u>363</u>	<u>37</u>
Decreasing 1%	\$ <u>(301)</u>	<u>(34)</u>	<u>(363)</u>	<u>(37)</u>

(vi) Fair value of financial instruments

1) Categories and fair value of financial instruments

The fair value of financial assets and liabilities at fair value through profit or loss, and financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

	Carrying amount	December 31, 2024			Total

2) Valuation techniques for financial instruments measured at fair value

The fair value of non-derivative financial instrument traded in an active market is based on the quoted market prices. The quotations, which is published by the main exchange center, is included in the fair value of the listed securities instruments in an active market open bid.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

A financial instrument is regarded as being quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry company, pricing service, or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's-length basis. Otherwise, the market is deemed to be inactive. Normally, a market is considered to be inactive as follows:

- a) the bid-ask spread is increasing; or
- b) the bid-ask spread varies significantly; or
- c) there has been a significant decline in trading volume.

When the financial instrument of the Group is traded in an active market, its fair value is illustrated by the category and nature as follows:

- The fair value of stocks listed on domestic and foreign markets, which are the financial assets with standard terms and conditions and traded in an active market, are based on the market closing prices.

Except the aforementioned financial instruments traded in an active market, measurements of fair value of financial instruments were based on a valuation technique. Fair value measured by a valuation technique can be extrapolated from similar financial instruments, the discounted cash flow method, or other valuation technique including a model using observable market data at the reporting date.

When the financial instrument of the Group is traded in an inactive market, its fair value is illustrated by the category and nature as follows:

- Unquoted equity instruments: the fair value of financial instruments transactions in an inactive market, which is valued by comparable method. The main hypothesis is referred from the quotations of comparable listed companies and earning multiplies of price-book ratio proportion as basic, which is adjusted by the discount affections of equity securities lacking market liquidity.
- 3) Transfers between Level 1 and Level 2

The Group didn't have any fair value transfer between levels for the years ended December 31, 2024 and 2023.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

4) Reconciliation of Level 3 fair values

	<u>Fair value through profit or loss</u>	<u>Fair value through other comprehensive income</u>	
	<u>Unquoted equity instruments</u>	<u>Unquoted equity instruments</u>	<u>Total</u>
Balance on January 1, 2024	\$ 3,654	36,279	39,933
Total gains or losses:			
Recognized in profit or loss	(267)	-	(267)
Recognized in other comprehensive income	-	93	93
Capital reduction	-	(6,273)	(6,273)
Balance on December 31, 2024	<u>\$ 3,387</u>	<u>30,099</u>	<u>33,486</u>

	<u>Fair value through profit or loss</u>	<u>Fair value through other comprehensive income</u>	
	<u>Unquoted equity instruments</u>	<u>Unquoted equity instruments</u>	<u>Total</u>
Balance on January 1, 2023	\$ 3,273	32,684	35,957

The aforementioned total gains and losses that were included in “other gains and losses” and “unrealized gains and losses on fair value through other comprehensive income-equity investments”, which related to holding assets on December 31, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Recognized in profit or loss	<u>\$ (267)</u>	<u>381</u>
Recognized in other comprehensive income	<u>\$ 93</u>	<u>10,261</u>

5) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group’s financial instruments that use Level 3 inputs to measure fair value include “financial assets measured at fair value through profit or loss-equity investments” .

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Most of the Group's financial instruments that use level 3 inputs to measure fair value have multiple significant unobservable inputs. There is no correlation existence among the significant unobservable inputs of equity investments that have no active markets because they were independent of each other.

Quantified information of significant unobservable inputs was as follows:

<u>Items</u>	<u>Evaluation technique</u>	<u>Significant unobservable inputs</u>	<u>Inter-relationship between significant unobservable inputs and fair value measurement</u>
Financial assets at fair value through profit or loss-equity investments without an active market	Comparable companies approach	<ul style="list-style-type: none"> • Price-book ratio (as of December 31, 2024 and 2023 were 1.52 and 1.55, respectively) • Market liquidity discount rate (as of December 31, 2024 and 2023 were all 20%) 	<ul style="list-style-type: none"> • The higher the price-book ratio, the higher the fair value • The higher the market liquidity discount rate, the lower the fair value
Financial assets at fair value through other comprehensive income-equity investments without an active market	Comparable companies approach	<ul style="list-style-type: none"> • Price-book ratio (as of December 31, 2024 and 2023 were 3.82 and 3.24, respectively) • Market liquidity discount rate (as of December 31, 2024 and 2023 were both 25%) 	<ul style="list-style-type: none"> • The higher the price-book ratio, the higher the fair value • The higher the market liquidity discount rate, the lower the fair value
Financial assets at fair value through other comprehensive income-unlisted fund	Net asset value method	<ul style="list-style-type: none"> • Net asset value 	Not applicable

6) Fair value measurements in Level 3 – sensitivity analysis of reasonably possible alternative assumptions

The fair value measurements of the Group's financial instruments are reasonable. However, changes in the use of valuation models or valuation variables may affect the estimations. As of December 31, 2024 and 2023, for value measurements in Level 3, if changing valuation variables, would have the following effects on the other comprehensive income were as follows:

<u>Input</u>	<u>Upwards or downward changes</u>	<u>Fair value variation on profit or loss</u>			
		<u>Favorable</u>		<u>Unfavorable</u>	
		<u>December 31, 2024</u>	<u>December 31, 2023</u>	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Price-book ratio	5%	95	114	(95)	(114)
Market liquidity discount rate	5%	42	46	(42)	(46)

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

<u>Input</u>	<u>Upwards or downward changes</u>	<u>Fair value variation on other comprehensive income</u>			
		<u>Favorable</u>		<u>Unfavorable</u>	
		<u>December 31, 2024</u>	<u>December 31, 2023</u>	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Price-book ratio	5%	226	211	(226)	(211)
Market liquidity discount rate	5%	89	82	(89)	(82)

The favorable and unfavorable effects represent the change in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects from changes in a single input, and it does not include the inter-relationships with another input.

(v) Financial risk management

(i) Overview

The Group have exposures to the following risks from its financial instruments:

- 1) credit risk
- 2) liquidity risk
- 3) market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the above-mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying consolidated financial statements.

(ii) Structure of risk management

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The financial management department is responsible for developing and managing risk management operations for the Group, and reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group's Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities.

1) Notes and accounts receivable

According to the credit policy, each new customer is analyzed individually for creditworthiness before the Group's standard payment, trade and other terms and conditions are offered. The Group's review includes external ratings, when available, and, in some cases, bank references. Credit limits are established for each customer, these limits are reviewed regularly.

2) Investments

The exposure to credit risk for the bank deposits, equity instruments, and other financial instruments are measured and monitored by the Group's finance department. The Group only deals with financial institutions and stock issued by companies with good credit ratings. The Group does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

3) Guarantees

According to the Group's policy, it may only provide financial guarantee for the companies which listed in the Group's Procedures for Endorsement & Guarantee. The Group did not provide financial guarantees to other company which is not its subsidiary as of December 31, 2024 and 2023.

(iv) Liquidity risk

The Group manages sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Group's management supervises the banking facilities and ensures compliance with the terms of loan agreements.

Loans and borrowings from the bank form an important source of liquidity for the Group. As of December 31, 2024 and 2023, the Group's unused credit line were amounted to \$11,258,552 thousand and \$9,665,575 thousand, respectively.

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(Continued)

ITEQ CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

The Group buys and sells derivatives, and also incurs financial liabilities, in order to manage market risk. Generally, all transactions are executed in accordance with policies approved by the Board of Directors, and related financial operations also supervised by the internal audit department.

1) Currency risk

The Group is exposed to currency risk on sales and purchases transactions that are denominated in a currency other than the respective functional currencies of the Group's entities. The currencies used in these transactions are the NTD, USD and RMB.

The Group monitors exposure of individual foreign currency assets and liabilities periodically and uses forward foreign exchange contracts to manage risks to the extent permitted by the policy. The maturity date of forward foreign exchange contracts undertaken by the Group is less than one year and does not meet the conditions of hedging accounting.

2) Interest rate risk

The Group's long-term and short-term borrowings are mainly floating rate debts, so changes in market interest rates will cause their effective interest rates to change accordingly, resulting in fluctuations in their future cash flows. In response to the risk of interest rate changes, the Group mainly adopts regular assessment of bank borrowing interest rates and maintains good relationships with financial institutions to obtain lower financing costs, and at the same time strengthens working capital management to reduce its dependence on bank borrowings and diversify the risk of interest rate changes.

3) Other market price risk

Risks arising from the Group's holding of equity instruments for the purpose of monitoring cash flow requirements and planning idle funds. The management of the Group plans the investment targets according to the timing of the cash flow requirements. Significant investments are managed individually and all purchase and sale decisions are approved by the Board of Directors.

(w) Capital management

The Group's policy is to manage its capital to safeguard the capacity to continue as a going concern, to continue to provide returns for shareholders, maintain the interest of other related parties, and to maintain an optimal capital structure to reduce the cost of capital. The Group use the debt-to-equity ratio to manage capital. This ratio is the total net debt divided by the total capital. Net liabilities from the balance sheet are derived from the total liabilities less cash and cash equivalents. The total equity is the entire component of the equity.

(c) Geographic information

In presenting information on the basis of geography, segment revenue is based on the geographical location of customers and non-current assets are based on the geographical location of the assets.

Revenue from the external customers:

<u>Area</u>	<u>2024</u>	<u>2023</u>
Asia	\$ 29,165,644	24,868,175
Europe	145,459	156,380
Other	<u>66,574</u>	<u>54,484</u>
	<u><u>\$ 29,377,677</u></u>	<u><u>25,079,039</u></u>

Non-current assets:

<u>Area</u>	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Taiwan	\$ 1,974,079	1,994,885
Asia	<u>10,149,008</u>	<u>9,458,825</u>
	<u><u>\$ 12,123,087</u></u>	<u><u>11,453,710</u></u>

Non-current assets include property, plant and equipment, right-of-use assets, intangible assets, and other assets, not including financial instruments, goodwills, deferred tax assets, investments accounted for using equity method and pension fund assets.

(d) Major customers

For the years ended December 31, 2024 and 2023, sales to customers greater than 10% of net revenue were as follows:

	<u>2024</u>		<u>2023</u>	
	<u>Amount</u>	<u>Percentage of net revenue (%)</u>	<u>Amount</u>	<u>Percentage of net revenue (%)</u>
A Company	\$ 4,217,548	14	3,067,018	12
